3 June 2026

To: All prospective Bidders

Ref: TD/T/4307/PC3/2026 (16354) ESTABLISHMENT OF A DYNAMIC PURCHASING SYSTEM (DPS) FOR TRENCHING AND CABLE LAYING WORKS (2026 to 2029) FOR ENEMALTA PLC IN AN ENVIRONMENTALLY FRIENDLY MANNER

Clarification No. 1

Hereunder please find a clarification, which is construed to form an integral part of this tender procedure.

Question 1:

Kindly upload DPS rates.

Answer 1:

Kindly note that, at this stage of the establishment of the DPS, no technical or financial offers are being requested.

As stipulated in the DPS documents, interested economic operators are required to satisfy the criteria indicated in Article 7 – Selection and Award Requirements in order to qualify for admission to the DPS.

Following admission, economic operators may be invited to participate in Specific Contracts issued by Enemalta plc. And it is only at the stage that bidders will be requested to submit both technical and financial offers.

The Financial Offer Form, in the form of a Bill of Quantities, will therefore be made available solely in connection with each Specific Contract and is not required during the DPS admission stage.

For any further information regarding the procedure, kindly refer to the DPS documentation and the Purchasing System Process Overview, both of which form part of the CfT documentation.

Question 2:

Could you please clarify whether a Bill of Quantities (BoQ)and/or a Schedule of Rates will be provided for this specific Dynamic Purchasing System (DPS)? Thank you.
