

Changes in E-tendering system (EPPS) as from 13TH October 2015

1. Kindly note that the opened tender details option has been changed to provide further information (apart from the schedule of prices). Now, one can get the number of appeals, if any that were lodged for that particular tender and the recommendation document can be downloaded from the same opened tender details instead of having to go to www.contracts.gov.mt site or other department's/Entity's site

2. When opening, saving or attaching a file while using the tender preparation tool you get a warning message to remind you that *“all files that need to be included in the offer (using the Tender Preparation Tool) must first be saved locally in one’s PC and retrieved from there. Files shall never be retrieved from shared folders, network drives, cloud storage or similar locations. It is also important to note that files to be uploaded must never be shared files”*.

- To enable faster identification of the notification emails received by the ePPS the Cft unique ID has been added to the subject of the emails sent when receiving cft related email notifications.
